Catalog Number

49681-020-005

Inline Filter, for HPLC, female connection, replaceable 0.188 inch PEEK filter elements and All-PEEK body. Includes 10 disposable 2 um PEEK filters. ARE-Applied Research brand. 5/PK.

Additional Info

Investing in high-quality PEEK in-line filters like this one is essential for maintaining the integrity of your HPLC system. Also, enhance Accuracy and Reliability in HPLC when you use All-PEEK inline filters.

Easy to Install and Remove

Includes 10 disposable and replaceable filters

It is well known that the quality of HPLC results heavily relies on the purity of the mobile phase—the solvent used to carry the sample through the system. These HPLC Solvent Filters reduces, minimizes, or eliminates several issues including Peak Broadening, increased Background Noise and clogging of the column which will reduce the lifespan of your expensive column and impacting its performance of A bag of 25, 6.25 mm, PEEK encased PEEK filters are supplied but any PEEK encased filter or porosity that is 6.25 mm OD and 1/16 inch thick should work. Click HERE for economical pack of 10 replacement filters.
