PTFE Syringe Filter 25cm

CS10-58045EP25K

Syringe Filters, 25 mm, PTFE, 0.45 um porosity. Polypropylene, Antarisz Brand. 1000/CS.

Additional Info

Antarisz™ PTFE Syringe Filters: Superior Filtration for Your Lab

Upgrade your lab ' s filtration capabilities with our Antarisz™ brand naturally hydrophobic PTFE syringe filters. Designed for precision and reliability, these filters are perfect for a wide range of applications, including HPLC sample preparation and the filtration of aggressive solvents.

Key Features:

Exceptional Chemical Resistance: Compatible with a broad spectrum of solvents, acids, and bases, ensuring versatility in your lab.

High Flow Rates: Efficiently process your samples with minimal delay, thanks to the superior flow rates of PTFE membranes.

Durable Construction: Built with a robust polypropylene housing, these filters are designed to withstand rigorous use.
