PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

67585-15P-4

HPLC Column, IEX SAX, 5um, 4.0mm ID x 150mm Length, 100A. Cogent Brand. 1 EA. CUSTOM ORDER.

Additional Info

This Cogent Ion Exchange Column is a Strong Anion Exchanger (SAX has a positively charged surface) Stationary Phase that has been a premium value and used by HPLC laboratories for many years. It is manufactured with Quaternary Amine functional groups that are always charged.

We use only the highest purity silica available, making this column ideal as an Alternate in USP Methods that use the L9 Classification or for acids analysis or purification.

With a 5µm Particle, this column works well and produces excellent data for challenging IEX applications that include Anions (negatively charge compounds).

This is a CUSTOM ORDER manufactured item which cannot be returned or canceled once an order has been placed. Click HERE for more information on what is a Custom Order.
