Additional Info

Stainless steel tubing connector nuts for 1/16" OD tubing provide secure connections in high-pressure HPLC systems. Designed for 10 32 ports, these fittings are used with stainless steel tubing and require compatible ferrules for proper sealing.

The 49590 04 features an extended 19 mm length, allowing proper engagement in deeper ports such as injectors and valves.

Key Benefits

316L stainless steel for strength and corrosion resistance

Hex head for secure wrench tightening

Long length for deep port connections
