### Additional Info

58807-P45 MICROSOLV Screw Caps are high quality solid polypropylene closures designed for GL45 threaded mobile phase reservoir bottles used in HPLC, UHPLC, LC MS, and general laboratory workflows.

These caps are ideal for sealing bottles when not in active use, helping to prevent contamination and maintain cleanliness during storage or transport. The purple color allows for easy visual identification and workflow organization, especially in multi solvent or multi instrument environments.

Manufactured from durable polypropylene, these caps provide reliable chemical resistance and long term performance in routine laboratory use.

Solid Cap Design – Contamination Prevention

Fully enclosed (no holes) construction
