Additional Info

58807-Y45 MICROSOLV Screw Caps are high quality solid polypropylene closures designed for GL45 threaded mobile phase reservoir bottles used in HPLC, UHPLC, LC MS, and general laboratory workflows.

These caps are ideal for sealing bottles when not in active use, helping to prevent contamination and maintain cleanliness during storage or transport. The bright yellow color allows for easy visual identification and workflow organization, especially in labs managing multiple solvents or systems.

Manufactured from durable polypropylene, these caps offer excellent chemical resistance and long term reliability in routine laboratory environments.
