PRODUCT SHEET

MICROSOLV
TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

9502S-E-10C-P

Caps, Screw Top, with Soft-Guard, White Silicone Rubber / Red PTFE Septa, bonded in "knurled", polypropylene, Purple Caps. For use with 9-425mm thread, 12x32mm autosampler vials. Soft-Guard Brand. 100/PK

Additional Info

Soft Guard™ septa are engineered to reduce needle resistance while maintaining strong resealing performance, helping improve injection consistency and reduce autosampler downtime.

The 9502S E 10C P Soft Guard™ Screw Caps utilize a specialized silicone formulation that minimizes coring and maintains elasticity over multiple injections. The bonded PTFE/silicone septa provide chemical resistance and protect sample integrity, supporting reliable performance across HPLC, GC, LC MS, and GC MS applications.

The purple polypropylene cap offers easy visual identification and features a knurled exterior for improved grip and secure handling. Designed for standard 9 425 thread, 12 × 32 mm autosampler vials, these caps provide dependable fit and repeatable sealing.

Key Features & Benefits

Easier needle penetration, consistent resealing Reduces missed injections and downtime
