# PTFE Syringe Filter 13cm

## CS10-58022EP13K

**Syringe Filters, 13 mm, PTFE, 0.22 um porosity. Polypropylene, Antarisz Brand. 1000/CS.**

### Additional Info

Economical, Antarisz™ brand PTFE Syringe Filters: Excellent Filtration for Your Lab

Upgrade your lab's filtration capabilities with our Antarisz™ brand of naturally hydrophobic PTFE syringe filters. Designed for precision and reliability, these filters are perfect for a wide range of applications, including HPLC sample preparation and the filtration of aggressive solvents.

Key Features:

Exceptional Chemical Resistance: Compatible with a broad spectrum of solvents, acids, and bases, ensuring versatility in your lab.

Hydrophobic and Hydrophilic Options: Choose the right filter for your needs, whether you're working with aqueous or organic solvents.

High Flow Rates: Efficiently process your samples with minimal delay, thanks to the superior flow rates of PTFE membranes.
