PES Syringe Filter 13cm

CS10-58045ES13C

Syringe Filters, 13 mm, PES, 0.45 um porosity. Polypropylene, Antarisz Brand. 100/PK.

Additional Info

Antarisz™ PES Syringe Filters: High Performance for Your Lab Needs

Enhance your laboratory ' s efficiency with Antarisz™ PES (Polyethersulfone) syringe filters. These filters are designed to deliver superior performance across a wide range of applications, ensuring reliable and consistent results every time.

Key Features:

Hydrophilic Membrane: The PES membrane is naturally hydrophilic, providing excellent flow rates and low protein binding, which is ideal for life sciences applications.

High Chemical Compatibility: Suitable for use with a variety of solvents and aqueous solutions, making these filters versatile for different laboratory procedures.

Low Protein Binding: Minimizes sample loss and ensures maximum sample recovery, crucial for sensitive biological assays.
