MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

9502S-0DCP

Vial & Cap Kit Includes 100 EA 2ml, Screw Top, Clear Deactivated Autosampler Vials and 100 EA matching Screw Caps with Silicone Rubber / PTFE Septa, fitted in the Robo Style, Blue Caps. MICROSOLV Brand Easy Purchase Pack. 1/PK. Special Order Item.

Additional Info

Simplify ordering and inventory management with a MICROSOLV Easy Purchase Pack that combines matching autosampler vials and caps in one convenient package. The reclosable packaging helps keep components organized, clean, and properly matched throughout storage and routine laboratory use.

9502S-0DCP includes 100 clear deactivated (silanized) 2 mL Screw Top Autosampler Vials designed for analytical methods involving compounds that may interact with active glass surfaces. Deactivation helps reduce analyte adsorption, improving sample recovery, reproducibility, and analytical accuracy.

The kit also includes 100 matching blue Robo Style screw caps with pre-installed Silicone Rubber / PTFE septa. These closure assemblies provide dependable sealing performance and broad chemical compatibility for HPLC, UHPLC, GC, and LC-MS applications. Pre-installed septa eliminate manual assembly and help maintain proper cap and septa alignment during autosampler operation.
