PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

9503S-0CV

Vials, Screw Top, Glass. Clear, 2ml, 10-425mm threads, 12x32mm outer dimensions. For use as an autosampler vial or storage bottle. MICROSOLV Brand. 100/PK.

Additional Info

The 9503S 0CV MICROSOLV™ Screw Top Autosampler Vial is a wide mouth 2 /mL glass vial manufactured from first hydrolytic, Class /A, Type /N51A pharmaceutical grade borosilicate glass that has been chemically deactivated (silanized). The silanized surface reduces glass activity, helping minimize unwanted analyte interactions compared to untreated glass.

The 10 425 (ND 10) wide mouth opening allows easy and efficient sample filling using pipettes or automated liquid handling systems. This makes the vial especially useful for routine chromatography workflows, where ease of handling and consistent filling are important.

This vial provides a practical balance of surface deactivation, usability, and value, making it suitable for everyday analytical and QC environments.

Key Features

Deactivated (Silanized) Pharmaceutical Grade Glass
