PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

9509C-1WAP-RS

Vial & Cap Kit includes 100 EA 2ml, Snap Top, Amber RSA™ Autosampler Vials with Write-On Patch and fill lines and 100 EA matching Snap Caps with Silicone Rubber / PTFE, ultra-pure Septa, fitted in the Light Blue Caps. RSA Brand Easy Purchase Pack. 1 PK.

Additional Info

Reduced Surface Activity with Fast, Convenient Snap Top Handling

RSA™ (Reduced Surface Activity) autosampler vials are engineered to minimize analyte interaction with glass surfaces, helping preserve adsorption prone compounds during routine analysis. The 9509C 1WAP RS RSA™ Snap Top Vial & Cap Kit combines this reduced surface activity with the speed and convenience of snap on caps, while amber glass provides added protection for light sensitive analytes.

This kit is well suited for laboratories performing frequent analyses where rapid sample preparation and efficient autosampler handling are priorities.

Snap top vials do not seal as tightly as screw top systems, but they offer significantly faster handling and improved autosampler responsiveness in applications where maximum seal integrity is not required.

Snap Top Cap & Septa System for High Throughput Workflows
