PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

9512S-0CV-P

CUSTOM ITEM: Vials, Screw Top, Glass. Clear, 1.5ml, U Shape. 9-425mm threads, 12x32mm outer dimensions and a fluted stand. For use as an autosampler vial. MICROSOLV Brand. 100/PK.

Additional Info

The 9512S 0CV P MICROSOLV™ U Shape Autosampler Vial is a custom ordered, specialty vial designed for laboratories requiring efficient recovery at mid range sample volumes using a U shaped, center draining internal geometry. This vial is often selected as an alternative to traditional champagne style autosampler vials, while maintaining compatibility with standard autosampler platforms.

Manufactured from first hydrolytic, Class /A, Type /N51A pharmaceutical grade borosilicate glass, this vial provides reliable chemical durability and consistent dimensional control. The internal U shape design promotes center draining and delivers a typical residual volume of approximately 15 /µL for most autosamplers, improving recovery compared to flat bottom designs.

A fluted external stand allows the vial to remain upright on the bench or in trays, improving handling convenience during sample preparation.
