MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

58807-250

Bottle, HPLC Mobile Phase Storage, Glass, Clear, 250ml, Screw Top, GL45 Threads. MICROSOLV Brand. 1 EA.

Additional Info

58807-250 MICROSOLV Glass Bottle is a high quality Hybex™ Type 33 borosilicate glass container designed for HPLC mobile phase storage and general laboratory solvent handling where chemical purity, durability, and temperature flexibility are critical.

This bottle is widely used across chromatography, analytical, pharmaceutical, environmental, and general laboratory workflows where accurate handling of moderate solvent volumes is required.

Because it is not safety coated, this bottle is ideal for applications requiring autoclaving, high temperature use, or repeated sterilization cycles.

The internal surface is unmodified, chemically inert borosilicate glass (Type 33, Type 1 classification), ensuring:

Low extractables and leachables

High solvent purity
