PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

69020-PG2

Guard Column cartridges, Phenyl Hydride, replacement, 2.0 mm ID x 10 mm long cartridges packed with 4 um, 100 A phase. Cogent TYPE-C Brand. 5/PK.

Additional Info

Phenyl Hydride™ Replacement Guard Cartridges for Analytical Column Protection

The 69020 PG2 Phenyl Hydride™ Guard Column Replacement Cartridges are designed to protect analytical Phenyl Hydride™ HPLC columns from particulate matter and strongly retained contaminants that can degrade column performance. Packed with Phenyl Hydride™ stationary phase using Cogent TYPE C™ silica hydride technology, these guard cartridges help maintain retention stability, peak shape, and column efficiency during routine HILIC analysis.

Replacement cartridges are essential for preserving analytical column lifetime in workflows involving complex matrices, frequent injections, or extended usage. A compatible guard column holder is required and is sold separately

Why Use Phenyl Hydride™ Guard Cartridges

Using matched guard cartridges provides several important benefits:

Protects analytical columns from particulates and irreversibly adsorbed contaminants
