Catalog Number

69020-PG3

Guard Column cartridge, Phenyl Hydride, replacement, 2.0 mm ID x 10 mm long cartridge packed with 4 um, 100 A phase. Cogent TYPE-C Brand. 1 EA.

Additional Info

Single Phenyl Hydride™ Guard Cartridge for Flexible Analytical Column Protection

The 69020 PG3 Phenyl Hydride™ Guard Column Replacement Cartridge provides targeted protection for analytical Phenyl Hydride™ HPLC columns when a single unit replacement is preferred. Packed with Phenyl Hydride™ stationary phase using Cogent TYPE C™ silica hydride technology, this guard cartridge helps preserve retention stability, peak shape, and column efficiency by capturing particulates and strongly retained contaminants before they reach the analytical column.

Single cartridges are especially useful for laboratories that require phase specific flexibility or occasional replacement without purchasing multi packs. A compatible guard column holder is required and is sold separately.

Why Use a Phenyl Hydride™ Guard Cartridge

Adding a matched guard cartridge offers several important benefits:
