Catalog Number

69020-PG4

Guard Column Starter Set, Phenyl Hydride, complete with 5 each 4.0 mm ID x 10 mm long cartridges packed with 4 um, 100 A phase and 1 each guard column holder. Cogent TYPE-C Brand. 1 EA.

Additional Info

Phenyl Hydride™ Guard Column Starter Set for Broad Analytical Column Protection

The 69020 PG4 Phenyl Hydride™ Guard Column Starter Set provides a complete, ready to use solution for protecting analytical Phenyl Hydride™ HPLC columns across multiple internal diameters. Designed around Cogent TYPE C™ silica hydride technology, this starter set helps maintain chromatographic performance, preserve retention stability, and extend analytical column lifetime in routine HILIC workflows.

Guard columns are strongly recommended for applications involving complex sample matrices, frequent injections, or extended analytical sequences.

What ' s Included in the Starter Set

This comprehensive starter kit includes:

Stainless Steel Guard Cartridge Column Holder Precision manufactured to provide secure, low dead volume installation
