PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

97030-0AV

CUSTOM ITEM: Vials, EPA Style, Glass. Amber, 20ml. 72.5x27.5mm outer dimensions. For use as an EPA test vial or storage bottle. ND24 threads. MICROSOLV Brand. BULK PRICING.

Additional Info

Provide dependable, high volume performance for environmental testing and storage of light sensitive samples with EPA style amber glass vials.

97030-0AV vials are manufactured from amberized First Hydrolytic, Class A, Type N51A pharmaceutical grade borosilicate glass. This low actinic glass helps protect samples from light exposure and degradation while delivering excellent chemical resistance and low extractables for consistent analytical and storage performance.

With an approximate total fill capacity of 31.1 mL, these vials offer increased sample volume capacity while maintaining standard EPA format compatibility. The ND24 (24 400) screw thread ensures broad compatibility with EPA style caps and liners, making these vials suitable for regulated testing, sample storage, and transport.

Key Benefits

Amber glass protects light sensitive compounds (low actinic)
