PRODUCT SHEET

MICROSOLV TECHNOLOGY CORPORATION
HPLC Columns and Chromatography Accessories

Catalog Number

97040-0CV

Vials, EPA Style, Glass. Clear, 40ml. 95.5x27.5mm outer dimensions. For use as an EPA test vial or storage bottle. ND24 threads. MICROSOLV Brand. 100/PK.

Additional Info

Provide dependable performance for large volume environmental testing and storage applications with EPA style clear glass vials designed for accuracy, durability, and compatibility. Manufactured from First Hydrolytic, Class A, Type N51A pharmaceutical grade borosilicate glass, these vials offer excellent chemical resistance, low extractables, and long term stability across a wide range of laboratory workflows. The clear glass construction allows full visibility for sample inspection, identification, and quality control.

97040-0CV vials have an approximate total fill capacity of 42.9 mL and are well suited for sample collection, storage, and transport in EPA and environmental testing workflows requiring larger volumes. The standardized ND24 (24 400) screw thread ensures compatibility with widely used EPA style caps and closures, allowing seamless integration into validated methods and high throughput laboratory processes.

When used with compatible caps (sold separately), these vials provide secure sealing and reliable containment for both regulated testing and general storage. Their larger size makes them especially useful for applications requiring increased sample volume,...
